Explore the Beyond Collection

Professional Washers and Dryers

Designed for long-lasting, heavy-duty use.

The Beko Professional range is ideal for those who look for fast, robust and safe washing and drying solutions, that last over time.

Equipped with a dedicated business and healthcare cycles package, these units deliver exceptional performance perfectly suited to commercial environments such as sports centres, beauty salons, hairdressers, nursery schools, B&Bs, military facilities, and student accommodations.

Cutting Edge Design

- Robust and durable construction
- Modern, technology-driven design
- High-quality, refined finish
- User-friendly operation
- Spacious drum capacity
- Wide door opening for easy loading and unloading
- Wi-Fi connectivity for mobile control on the dryer

Beyond Professional Washer

The best performance with compact dimension and low consumption.

LARGE CAPACITY

Thanks to the large size of the drum, the new washing machine offers the possibility of washing full loads of 10 kg in compact dimensions.

ECO-COTTON PROGRAM

The washing machine is equipped with ECO Program with 40°C and 60°C. These cycles use less energy and water than other cycles, helping to reduce the environmental impact, while guaranteeing excellent washing performance of soil removal. The machine is an A energy Class.

EXPRESS CYCLE

Fast cycles are essential for commercial business where there is the need to do multiple washes per day, with the Express cycle you can wash a full load in just 28 minutes.

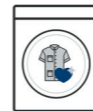

Hygiene+ Cycle

The machine guarantees the best hygiene to your laundry thanks to the Hygiene+ Cycle, where the high temperature over 65°C kept for more than 30 minutes allows the garments to be sanitized from any contamination, an essential requirement for professional business.

To ensure an higher level of hygiene, the cycles add a steam step application before the program start and an additional rinsing at the end.

Healthcare Programs

ANTI ALLERGY CYCLE

The ideal choice for those who suffer from allergies and sensitive skins. It removes 99.9% of allergens like pollens, house dust mite, pet hair and detergent residues thanks to high temperature, pre-wash and extra rinse. It's suitable for washing durable textiles such as bed lines, towels and everyday cotton garments.

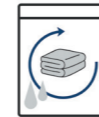

DRUM CLEAN CYCLE

Experience superior washing machine hygiene with this Drum Clean program. Using steam to soften the residues inside the drum, hot water and vigorous tumbling at 70°, this program ensures thorough cleaning and eliminates any bad odors due to detergent residues and bacteria proliferation.

Business Package Programs

STAIN EXPERT™

This specialised program is designed to effectively remove a wide range of stubborn stains. The automatic stain function can treat 24 of the most persistent stain types, organised into three groups for quick and simple selection. Based on the chosen stain group, the machine automatically adjusts the wash cycle—including wash duration, drum movements, and number of rinses to achieve optimal cleaning results.

WORKING CLOTHES

Special program studied to wash work uniforms, work-trousers, t-shirts made of synthetic and cotton fabrics.

TOWELS

Ideal to wash a full load of bath towels, hand towels or kitchen towels. Items frequently used in the professional business.

WASHER

Business programs

Cycles are matchable, everything you WASH, you can DRY with ease!

Robustness & Safety

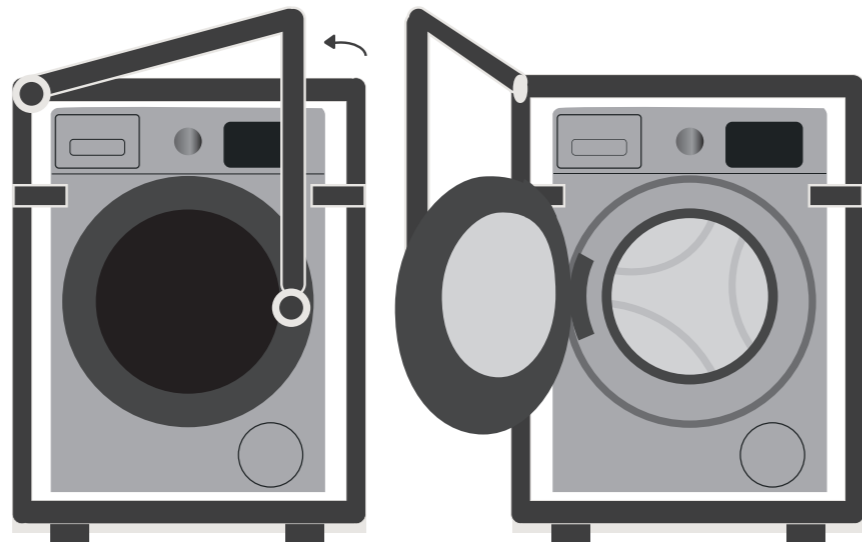

Extra long lifetime, studied to last much longer than a standard washer.

Built to bear all the electrical and mechanical safety tests required by the Machinery Directive 2006/42/EC.

Thanks to the sturdiness of its components, it's engineered to perform up to 5.000 cycles without any problem.

The Life Cycle Test has been done with the Rinse & Spin cycle, the most stressful for the machine.

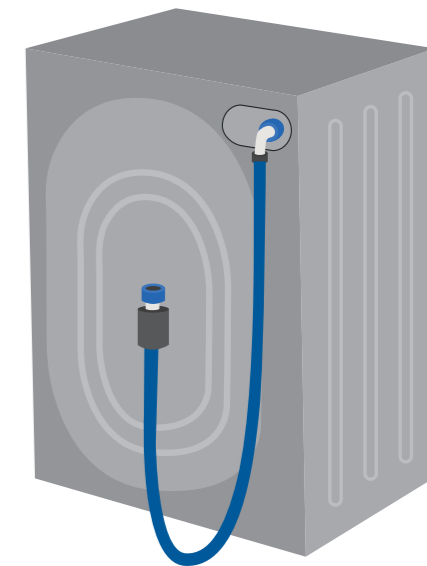

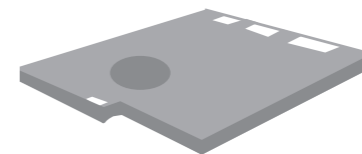

Aquasafe+ Full Protection Device

Equipped with the most effective anti-flooding system made of a double inlet hose and a tray on the base of the machine which collects the water in case of breakage, while a sensor blocks immediately the incoming water.

Extreme safety, in case of breakage there is no fear of flooding and the machine automatically stops functioning.

Beyond Professional Dryer

Experience the next level of perfect drying.

The new Beko Professional Dryers combine the energy saving efficiency of the heat pump technology with the long-lasting durability for the commercial usage.

Extra long life time

The Beyond Professional dryer is compliant with the strict norms of the Machinery Directive 2006/42/EC and thanks to its components, the dryer is able to perform up to 6.000 working hours without any problems.

Eco-friendly solution

Thanks to the BPM Motor and the Heat Pump Technology, the Commercial dryer assures the max energy efficiency reaching the A+++ energy class (C Class for new NEL) with the Eco-Cotton cycle. The Beyond dryer is equipped with the Eco-Gas R290.

Hygienic drying

The Hygienic Drying cycle is specifically designed to deliver the safest drying process for garments such as blankets, towels, and underwear. By operating with parameters that eliminate most allergens, it helps reducing risks for individuals with sensitive skin or allergies. This cycle has been scientifically tested and certified by the Allergy UK Foundation.

Business programs

XXL BIG ITEMS

This special cycle is studied to dry cotton and synthetic bedding sets. The big capacity allows to dry double bedding set + an extra sheet and pillowcase at the same time while ensuring perfect drying results.

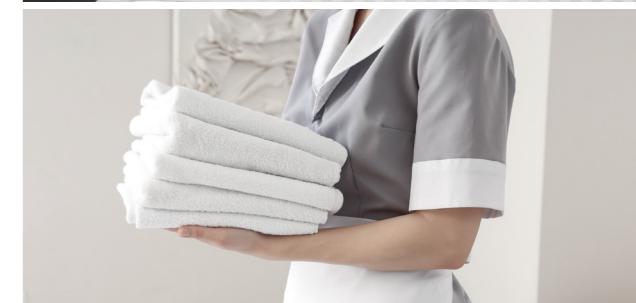

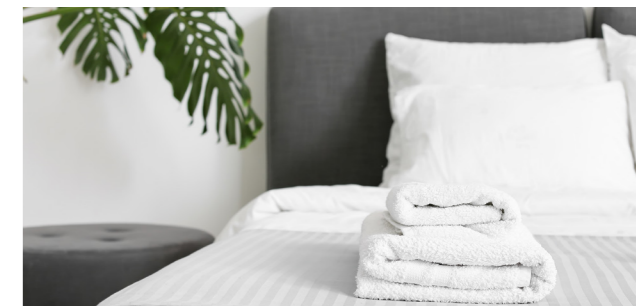

WORKING CLOTHES

Dedicated to dry the work uniform, work-trousers, t-shirts made of synthetic and cotton fabrics and work overalls.

TOWELS

Ideal to dry a full load of bath towels, hand towel or kitchen towels. Items frequently used in the professional dryer.

Downloadable cycle

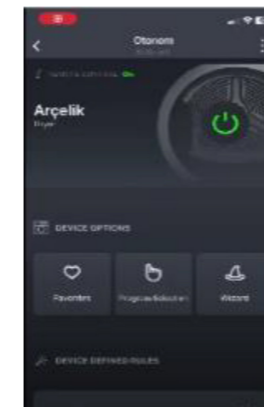

With the Beyond Professional dryer you have the flexibility to select and download 5 more cycles on top:

- **Duvet** (1 double size synthetic duvet)
- **Underwear**
- **Outwear sport /Goretex** (sport jackets, waterproof products)
- **Fashion** (delicate items or blouses)
- **Shirt** (studied to dry shirt in the most delicate way in order to create less wrinkles and guarantee an easier ironing)

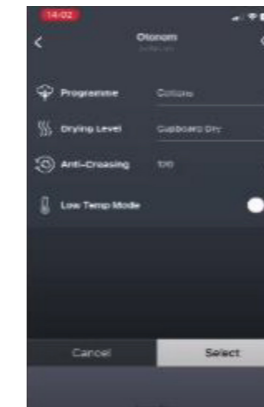

Wi-Fi connection with remote control

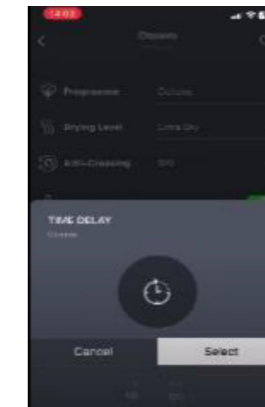

On the dryer thanks to the Home Whiz application you have the possibility to start a cycle remotely, select all options including the delay timer and controlling the time to end and the cycle progressing information, for an improved customer's user experience. The remote control should be installed on the mobile phone following the instructions in the user manual.

Working Clothes / Towels / Stain Expert

EXPRESS CYCLE

To wash a full load in only 28 minutes

MAIN FEATURES

Product Description	AWGB 1012S/PRO
12NC Code	869991731910
EAN Code	8690842800368
Load Capacity (kg)	10 kg
Maximum Spin Speed (rpm)	1200
Type of Control Panel	Digit
Type of Timer	Electronic
Panel Language	English/Symbol
Main Colour of Product	Silver
Plug Type	Schuko
Drum Volume (L)	75
Type of Motor	BPM Inverter
Type of Water Protection System	Full Aquastop
Drum Material	Stainless Steel
Heating Type	Electric
Number of Programs	15

WEIGHT & DIMENSIONS

Net Weight (kg)	81
Gross Weight (kg)	82
Height of the Product (mm)	845
Width of the Product (mm)	600
Depth of the Product (mm)	630
Height of the Packed Product (mm)	885
Width of the Packed Product (mm)	650
Depth of the Packed Product (mm)	650

TECHNICAL DATA

Electrical Connection Rating (W)	2200
Voltage (V)	230v
Frequency (Hz)	50 Hz
Water Consumption Eco Program per cycle (Lt)	56
Remaining moisture %	52
Noise Level Spinning (db(A) re 1 pW)	77
Noise Level Washing (db(A) re 1 pW)	50
